### **Eriez® Hires New Heavy Industries Sales Engineer**

Erie, Pa. — Eriez®, world authority in advanced technology for magnetic, vibratory and inspection applications, announces the appointment of Brian Vrablic to the new position of Sales Engineer – Recycling. “In this time of significant growth at Eriez, Brian will help us provide an increased level of support to our recycling industry customers,” says Charlie Ingram, Vice President of Sales and Marketing.

In his new role, Vrablic will support the Eriez Heavy Industries Group, which is led by Dan Norrgran, Heavy Industries Market Manager. He will work closely with Al Gedgudas, Resource Recovery Market Manager, and Mike Shattuck, Heavy Industries Project Manager, selling innovative Eriez solutions to the ever-expanding metals recycling market.

Before joining Eriez, Brian served as a Regional Manager for Balemaster, a manufacturer of balers, shredders and hoppers for the waste handling industry. He earned his Electrical Engineering degree from Tri-State University in Angola, Indiana and his MBA from Indiana University-Northwest.

“Brian is an experienced professional who has the skills and product knowledge needed to be successful in this challenging new position,” says Norrgran. He continues, “Brian joins Eriez at a very exciting time as we continue to make investments in order to enhance our current line of recycling equipment and develop and introduce revolutionary new offerings.”

Eriez is recognized as world authority in advanced technology for magnetic, vibratory and inspection applications. The company’s magnetic lift and separation, metal detection, x-ray, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, recycling, mining, aggregate and textile industries. Eriez manufactures and markets these products through ten international facilities located on six continents. For more information, call toll-free (888) 300-ERIEZ (3743) within the U.S. and Canada.
