### Free Brochure from Eriez® Features State-of-the-Art E-Z Tec® 9100 Metal Detectors

Eriez® announces the availability of a free guide that showcases the company's innovative [E-Z Tec® 9100 Metal Detector](#). According to the literature, this metal detector offers incredibly high sensitivity, making it an ideal choice for the plastics, chemical, recycling and rubber industries.

The literature highlights the advantages of the E-Z Tec 9100, including its superior ability to detect very small ferrous, nonferrous and stainless steel metals in free fall or gravity fed applications. It also describes its many unique features, including a high speed operated diverter valve, single printed circuit board, surface mount technology, self monitoring capability, optional in-feed hoppers and an easy-to-remove diverter mechanism.

[The E-Z Tec 9100](#) is available in six aperture sizes. Internal pipe diameters range from 1.10-inch to 4.68-inch to meet specific capacity requirements.

Eriez is recognized as world authority in advanced technology for magnetic, vibratory and inspection applications. The company's magnetic lift and separation, metal detection, x-ray, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, recycling, mining, aggregate and textile industries. Eriez manufactures and markets these products through ten international facilities located on six continents. For more information, call toll-free (888) 300-ERIEZ (3743) within the U.S. and Canada. For online users, visit [www.eriez.com](http://www.eriez.com) or send e-mail to [eriez@eriez.com](mailto:eriez@eriez.com). Eriez World Headquarters is located at 2200 Asbury Road, Erie, PA 16506.
